Want to have the opportunity to drive India's Financial Economy?

Do you want just another job, or the widest canvas in Finance & Public Policy?

The Reserve Bank of India is much, much more than you thought. RBI is one of the chief architects of the nation's economy and its decisions touch the everyday lives of all Indians. From ensuring stability of interest rates and exchange rates to ensuring the orderly development of financial markets, the Reserve Bank of India contributes to nation-building.

1. Monetary Authority

The Reserve Bank of India works towards keeping inflation under check and ensures adequate supply of liquidity for the productive sector.

2. Regulator of the Financial System

Prescribes regulations for sound functioning of banks and financial institutions, including non-banking finance companies • Promotes best practices in risk management and corporate governance to protect depositors' interest and to enhance public confidence in the financial system of the country • Encourages use of technology in banks to provide cost-effective service to consumers.

3. Issuer of Currency

Ensures quality and adequacy of currency notes.

4. Management of Foreign Exchange & Custodian of Forex Reserves

Formulates policies to facilitate external trade and payments, facilitates foreign investments in India and Indian

investments abroad and promotes orderly developmental conditions in foreign exchange markets.

5. Banker to the Government

Maintains accounts and performs merchant banking function for the Central and the State governments. Encourages development and orderly functioning of Government securities market. Advises Central and State governments on better cash management.

6. Payment & Settlement Systems

Works towards the establishment of a modern, robust, efficient, secure & integrated payment and settlement systems for the country.

7. Bankers' Bank

Ensures adequate liquidity in the financial system and in individual banks, on a daily basis • Performs lender of the last resort function.

8. Developmental Role

Performs a wide range of functions to support national objectives such as ensuring orderly growth and development of financial markets and institutions, creating institutions to serve specialised financial needs and extending the organised financial sector to all parts of the economy.

9. Research

Serves as the primary source of information on Indian economy and financial system • Analyses the issues and problems affecting the Indian economy • Renders advice for policy formulation and shaping monetary, banking and financial policies • Warehouses data to enable decision-making.
